## SAYS THE CINCINNATI GAZETTE OF

Tuesday:  
"The election news from Kentucky is of a gratifying character. The Republicans have not carried the State—that was not expected—but they have out the hitherto bulky Democratic majority down to slender proportions. Our Louisville dispatch puts the figures at from 15,000 to 20,000. Considering that Tilden's majority in 1876 was over 64,000, this can hardly be deemed a vindication of Dr. Blackburn."

## It will have a telling effect also on

the coming election this fall.

## Mr. Tilden's Choice.

A Washington dispatch to the New York Tribune says a prominent Democratic politician, who recently held a long conversation with Hon. Saml. J. Tilden, represents that gentleman as expressing some doubts as to whether he will be able to secure the Democratic nomination for the next presidency, because of defection towards him South and West. Pressed to name a candidate aside from himself who would answer all the requirements, Mr. Tilden is said to have remarked that Justice Field, of California, appeared to him to be the strongest and most available man; that Judge Field's relatives are very wealthy, and would be willing to spend a million or two if he were nominated; that the Pacific States would undoubtedly be solid in his favor, and that he would stand a better chance in New York and the other doubtful Northern States than any of the other candidates whose merits have been discussed.

## Death of a Former University Student.

Mr. Thos. Walker, a former student from Chattanooga at the University, died on Walden's Ridge, 2nd inst., after a long illness from consumption, aged 17 years and 8 months. The Times has this to say of him:

"Tom contracted his disease last Christmas while at the University of Tennessee, at Knoxville. He was prostrated there, but recovering somewhat he came home to Chattanooga, and improved so much that his complete restoration was hoped for. But the dread disease attacked him again, and he fell ill again, and his uncle, Mr. Edmundson, took him to Walden's Ridge, hoping that the pure mountain air would prove beneficial. But to no avail; he grew worse, and in a few days sank rapidly and breathed his last in a conscious condition, at 10 A. M., Saturday, August 2. Tom was an exemplary young man; he was entirely devoid of all the faults and habits to which youth in general give way. At school he was studious, quiet, obedient, beloved both by his professors and fellow pupils. By his whole-souled frankness and generous, manly behavior, everywhere he won the hearts of all. We bear witness to his shining qualities, and inscribe to his beloved memory this humble tribute."

## TELEGRAPHIC.

## YELLOW FEVER RECORD.

Eleven New Cases of Yellow Fever in Memphis Yesterday.

Two Deaths Reported Since Wednesday Night.

The Weather Sultry and Heavy Storms Prevailing.

## YELLOW FEVER.

MEMPHIS, Aug. 7.—Eleven new cases of yellow fever were reported this morning, seven of whom are colored. The whites are, Mike Dwyer, John Swannader, J. M. Tighe, and Miss Amelia Herman. Two deaths have occurred since last night, Mike Holly and Leonce Chenot, a prescription clerk at Monier's drug store, on Beal street. Mrs. J. M. Tighe is also down with yellow fever at her residence on Walker avenue, beyond the city limits. Ed. Moon is still alive. The weather is sultry.

Heavy storms prevailed last night north of Memphis and a light shower fell in the city shortly before daylight this morning.

## TUESDAY'S SICK AND DEAD ROLL.

Special to the Cincinnati Gazette.

MEMPHIS, Aug. 5.—The physicians reports indicate a continued and more rapid spread of the disease, as eighteen new cases were placed on file at the office of the Board of Health during the past twenty-four hours. The greater portion of the new cases being of the colored population, indicates that the negroes are paying dearly for their stubborn folly in not getting outside of the plague-infected city.

The following are the new cases reported to-day: Whites—Annie Johnson, eleven years, 227 Elliott; Emma Hollander, nineteen, 39 Hawley; Lizzie Grissom, six, 13 Bradford; Sophia Erwin, twenty-eight, 80 Mosby; Willie Riley, eight, corner of Third and Jefferson; Wm. Lenahan, twenty-one, 16 Wright avenue; Eva Nowland, seventeen, 155 Linden. Colored—Miranda Brown, sixty, 92 Court; Irlia Mayes, nine, 35 Winchester avenue; Lucinda Smith, twenty-seven, 102 Fourth; Henry Morris, twenty-seven, hospital; Laura Hill, nineteen, 176 South; Francis Coleman, nineteen, 123 Pontotoc; Daniel Gordon, 93 South; John Owens, eight, 180 Linden; Albert Dunlap, twenty-two, 57 De Soto; Robert Hayes, eight, 89 De Soto.

The undertakers also report an increase in the list of dead, as follows: John Waters, thirty-eight, 62 Jones avenue; Rosa Hendrick, eleven, Manassas; Louisa Grissom, eight, 63 Bradford; Ida Reister, ten, 421 Wellington; George White, (colored), twenty-five, 53 Bradford. Total deaths from yellow fever, five; deaths four, colored, one, white. Another death was reported—R. B. Wilson, aged fifty, 349 Second street; cause, chronic diarrhea. The Howard Association makes only semi-weekly reports, but I glean from the books to-day that they have up to date on hand eighty sick persons, of which sixty-two are whites. Eighty-one nurses are on duty. Nineteen of the Howard's sick are discharged as convalescent, and eight have died. Their four physicians have their hands full attending the sick of the Howard's, besides looking after their private practice.

## NEW YORK.

NEW YORK, Aug. 7.—The meeting of the Convention of the National Cotton Exchange which is to be held in this city Wednesday next is creating much interest among cotton dealers. The committee of permanent dealers are now actively engaged in making arrangements for a place and programme of meeting, and there is every reason to expect the convention to be a very successful one. It is expected it will be attended by 60 or 100 delegates, representing every important district interested in the production of cotton. Just what subjects are to be discussed at the convention have not yet been decided upon.

President Phelps, of New Orleans, is now in Boston on business connected with the convention, and will be on hand to preside next week. The arrival yesterday, on the steamship Algeria, from Liverpool, of 180 Sheffield cutlers under contract with J. D. Frovy, of Bridgeport, Connecticut, excites considerable interest. The men say they

did not leave Sheffield for want of work, but because they were offered better wages and more comfortable homes by the proprietors of the Frovy cutlery works. They expect five hundred more will come over in the fall.

## WASHINGTON.

WASHINGTON, D. C., Aug. 6.—The Secretary of the Treasury has approved the opinion of the Solicitor of the Treasury and has decided to remit all fines and penalties incurred by vessels of the Memphis and St. Louis Packet Company by carrying an excess of passengers during the exodus of the colored people from the States of Mississippi and Louisiana.

WASHINGTON, Aug. 7.—Official information has been received at the State Department from Berlin that the German Government is inclined to modify the position heretofore taken by it against silver and will discuss with the United States the steps looking to the adoption internationally of the bi-metallic standard.

## MARYLAND.

BALTIMORE, Aug. 6.—The Democratic State Convention, to nominate candidates for Governor, Comptroller, Attorney General and Clerk of the Court of Appeals, assembled in this city to-morrow. There is no opposition to Hon. Wm. T. Hamilton, of Washington county, as party candidate for Governor, and he will probably be nominated by acclamation. Mr. Hamilton was United States Senator from this State, his term expiring in 1875. For Comptroller and Attorney General the present incumbents will be re-nominated.

## NEW HAMPSHIRE.

MANCHESTER, Aug. 7.—About midnight a serious break occurred in the upper canal, washing out an embankment thirty feet at a point where the Army mills are being built. By this break, about ten thousand operatives are thrown out of employment. The cost of repairs will be about \$500, and the mills will be in operation within twenty-four hours. The water found vent through the lower canal, thus preventing more serious damage.

## MARYLAND.

BALTIMORE, Aug. 7.—In the Democratic State Convention to-day Hon. Wm. T. Hamilton, of Washington county, was unanimously nominated for Governor, C. J. McGinnis was nominated for Attorney General, and Thos. J. Keating was nominated for Comptroller. There were no other nominations for these offices and they were made without the formality of a call of the roll.

## NOVA SCOTIA.

HALIFAX, Aug. 7.—The wreck of the steamer Burgess, in St. Mary's Bay, N. F., creates much discussion in the local papers. The Burgess struck on the rocks in Mariner's Cove, in a dense fog, July 14th. The Captain engaged the help of fishermen and was busy saving the cargo when more than forty large boats appeared containing three or four hundred men who boarded the wrecked ship in spite of protests and began carrying off the cargo. They cleared the decks of wheat and everything else moveable, including four hundred sheep and then left. Through the exertions of the local authorities, three schooner loads of the stolen property were recovered and other small lots have since been given up, but most of it is still in the hands of the marauders.

## FOREIGN NEWS.

LONDON, Aug. 7.—The colliers of Lanardshire, Scotland, have agreed to work only four days in each week. This movement, together with the already greatly reduced supply of coal, has caused the first upwards movement in prices which has been recorded on the Glasgow Coal Exchange for three years. It is expected that the colliers will immediately demand an increase of wages.

A dispatch from Alexandria to the Reuter's telegraph company, says: "Tewfik, the new Khedive of Egypt, received a telegram from the Sultan of Turkey on the 3rd inst., demanding that permission be given to Khedive Ismail Pasha to return to Egypt and reside at Alexandria or Damietta. The British and French consuls advised the Khedive to defer his reply until they had consulted their Governments on the subject."

Remember that you can get the WHIG and CHRONICLE, a large, eight page paper, until the first of January, 1880, for fifty cents.

## MICHIGAN.

DETROIT, Aug. 6.—At a meeting of citizens and Detroit River Navy last night, it was decided to hold, open to all amateurs, a regatta at this city on August 27th and 28th. Prizes valued at from \$1,200 to \$1,500 will be given by the ward committees. Wohwhisum, Wyandotte and other crews will probably participate in a four oared race.

## What Part?

Scene—Hotel reading room. Gentleman: "I beg your pardon, but where in hell have I seen you before, sir?" Gentleman (looking up from his paper): "I am sure I can't tell. What part of hell are you from, sir?"—News Letter.

## Yellow Fever Notes.

Memphis special to Wednesday's Cincinnati Gazette:  
The trouble about the relief of the poor took a new turn to-day. At the meeting of the General Committee of Public Safety to-day a communication from certain white citizens of Fort Pickering was presented, read, and referred to the Committee on Charity. The communication was signed by forty white residents of Fort Pickering. It goes on to state that an epidemic of yellow fever is pending in our midst, causing suspension of trade and business which will most probably prevail until frost; that the Board of Health has asked citizens to leave the city and go to camps furnished by the general government; that the camp life would be fatal to many families, among them being advanced in years and infirm; that a majority of them had the fever last year, and now they are in the midst of the same, according to medical opinion; that Fort Pickering is not protected by the city authorities, and if they left their property would be exposed to danger. Hence they deemed it their duty to remain and support one another; therefore, they resolved that they, the white citizens, decline going into camp, but had resolved to remain at home, or organize themselves for mutual assistance and the enforcement of law and order in the vicinity during the period of the epidemic; that F. Dunn, G. B. Clark, A. Wallace, S. Boyle, L. M. Myers, J. C. Joyce, and Thos. Davidson, be appointed a committee to wait upon Hon. D. T. Porter, President of the Board of Police Commissioners, and consult him upon the measure of assistance he might afford us, and to present their claims thereto.

During the discussion on the petition, President Porter stated that they would subscribe as citizens, and try to raise funds and make application for public charity to the world. There were but a few of them, and many of them were able to take care of themselves, and when they were unable to do that, then they could make application to the citizens of Memphis for aid. Several members of the Committee of Safety stated that they would subscribe as citizens, to the support of these petitioners, when it was needed.

## Brass Bands—Their Uses and Abuses.

MR. EDITOR: I like brass bands. They serve a useful purpose on appropriate occasions. And I admire the public spirit of those who compose our amateur brass bands in this pleasant and enterprising city of Knoxville. But brass bands, like everything else of man's invention, have their uses and also may have their abuses.

Now, I am endeavoring to be a Christian, as I believe my neighbors are, and I submit to those who know the desperate wickedness of the human heart, and its capacity, when irritated and enraged beyond forbearance, to seriously entertain thoughts of murder, and to express itself vehemently in words not strictly of a theological caste that it is not conducive to Christian development and growth in grace, to be rudely awakened out of a peaceful slumber after midnight by the noises of a brass band, close by, in the public street. Most I am not cavilling at our brass bands, I hope they are citizens, and I improve. (I would suggest that it may be there is more room for improvement outside of town, and then too, change of air is always beneficial, especially to those who, through exposure to the night air, are threatened with lung troubles.) I repeat, I have an affection for brass bands—and I would not like to have that affection obliterated, nor my Christian growth impeded, by the murderous hatred, which I know will possess me, if awakened too often at dead of night by their truly electrical strains. ONE WHO WANTS TO BE A CHRISTIAN.

## You Can Be Happy

If you will stop all your extravagant and wrong notions in doctoring yourself and families with expensive doctors or humbug cure-alls, that do harm always, and use only nature's simple remedies for all your ailments—you will be wise, well and happy, and save great expense. The greatest remedy for this, the great, wise and good will tell you, is Hop Bitters—believe it See "Proverbs" in another column.

## Any one sending us ten subscribers

at fifty cents each, will receive a copy of the WHIG and CHRONICLE free until January 1st, 1880.

## MARKETS BY TELEGRAPH.

## Ayer's

## Sarsaparilla

For Scrofula, and all scrofulous diseases, Erysipelas, Rose, or St. Anthony's Fire, Eruptions and Eruptive diseases of the skin, Ulcerations of the Liver, Stomach, Kidneys, Lungs, Pimples, Pustules, Boils, Blisters, Tumors, Tetter, Salt Rheum, Scald Head, Ringworm, Ulcers, Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea, arising from internal ulceration, and Uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives—Stillingia, Mandrake, Yellow Dock—with the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure.

Its ingredients are so skillfully combined, that the full alternative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome diseases.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the world repose in it, prove their experience of its usefulness. Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known, that we need no more than to assure the public that the best qualities it has ever possessed are strictly maintained.

## PREPARED BY

Dr. J. C. AYER & CO., Lowell, Mass., Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE.

## Ayer's Cathartic Pills,

For all the purposes of a Family Physician, and for curing Constipation, Jaundice, Indigestion, Puff Swelling, Breach, Headache, Erysipelas, Scrofula, Eruptions and Skin Diseases, Biliousness, Dropsy, Tumors, Worms, Neuralgia, and all Diseases of the Blood, for Purifying the Blood.

Are the most effective and congenial purgative ever discovered. They are mild, but effectual in their operation, moving the bowels surely and without pain. In their operation, they are still the most thorough and searching cathartic medicine that can be employed, cleansing the stomach and bowels, and even the blood. In small doses of one pill a day, they stimulate the digestive organs and promote vigorous health.

Ayer's Pills have been known for more than a quarter of a century, and have obtained a world-wide reputation for their virtues. They correct diseased action in the several assimilative organs of the body, and are so composed that obstructions within their range can rarely withstand or evade them. Not only do they are the every-day complaints of everybody, but also furnish relief in dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are, at the same time, the safest and best physic for children. By their aperient action they grip much less than the common purgatives, and never give pain when the bowels are not inflamed. They reach the vital fountains of the blood, and strengthen the system by forcing it from the elements of weakness.

Adapted to all ages and conditions in all climates, containing neither calomel nor any deleterious drug, these PILLS may be taken with safety by anybody. Their sugar-coating preserves them ever fresh, and makes them pleasant to take; while being purely vegetable, no harm can arise from their use in any quantity.
